

OPERATION MATH!

Does your 4th or 5th grader need some extra math help? Operation math is your answer! Mrs. Cox and Mrs. Fouts are offering an afterschool enrichment program that focuses on math review and practice. In this program, we will reinforce lessons currently taught in 4th and 5th grade. We will complete any math homework, then accelerate student learning based on student understanding of basic math operations.

This class is open to 4th and 5th graders. It will be offered on Thursdays from 3:00-4:00. Classes will be taught in a small group setting, so space is limited.

If you would like to enroll your child, the cost is \$20 per class. This fee includes a snack and any instructional materials. Payment is due every Thursday or you can pay for the entire session if you would like. Any checks should be made out to "Nikki Cox." If you have any additional questions, please feel free to contact me at ncox@stmm.org or dfouts@stmm.org.

Operation Math (4th-5th Grade Only)

Student Name(s) _____ Cell Phone # _____

Email Address _____
