

We Learn. We Build. We Play.

# AFTER SCHOOL

So fun... it won't feel like learning!!

## After-School Enrichment Program

**BRICKS 4 KIDZ** programs provide an extraordinary atmosphere for students to build unique creations, explore architecture and engineering, including famous buildings, motorized machines and inventions, all while having fun using LEGO® bricks. The activities are designed to trigger young children's lively imaginations, build their self-confidence, and develop problem solving and critical thinking skills. Class size is limited.

The options are endless with the Bricks 4 Kidz model plans.  
Kid tested and approved for learning fun!

Our Motto: Inspiring, developing and educating...one LEGO brick at a time.
